

CASE STUDY

# Castleford

## The issue

### Depleted of oxygen

Suprafil were asked to install mixers in the anoxic zones of Castleford in Wakefield that were depleted of dissolved oxygen.

## The solution

### Complete aeration

Yorkshire Water commissioned Suprafil to install blowers, air mains, valves and diffusers.

## The result

### Client satisfaction

Suprafil carried out a complete aeration solution to the new build works for delivery contractor Morgan Sindall on behalf of Yorkshire Water to the value of £320,000.
